

Equity Stock Picks

Equity Group – Buy - Currently trading at Kes 36.75, the Equity Group stock has registered a 31.3% year-to-date downturn. The stock is trading at 6.05% above the six-months average of Kes 34.65, courtesy of the rally that was experienced upon announcing the 3Q2020 financials. The group posted a 64.3% q/q and a 17.0% y/y revenue growth. Furthermore, the group finalized the acquisition of Banque Commerciale du Congo, a move that will see its branch list growth by 29 branches and approximately 200,000 clients.

East Africa Breweries – Buy – We advise an entry into this stock which is currently trading at Kes 159.25. The stock is on the recovery path after hitting a 52-week low of Kes 135.25, a 63.96% decline from the 52-week high price of Kes 221.75, a direct consequence of Covid-19 pandemic. With the relaxed covid-19 rules on consumption of the product, coupled with the upcoming festive season, we foresee an enhancement of the bottom-line. The stock has registered a y-t-d performance of -19.8% hence presenting an ideal point of entry.

Nation Media Group – Sell- We still hold an exit position on the media company, due to a continuous erosion of the revenue, a situation that has been resulted by a paradigm shift in the distribution channels. The stock is currently at Kes 16.20; a 59.3% y-t-d value erosion. The stock has registered a six-month average of kes 16.14.

Recommendation Guide:

Analysts' stock ratings are defined as follows:

- **Buy** – A buy rating reflects 1) An analyst has a bullish conviction on a stock 2) A 30% or greater expected return.
- **Accumulate** – An accumulate rating reflects 1) An analyst has a lesser bullish conviction on a stock 2) Expected return falls between 10% and 30%.
- **Hold** – A hold rating reflects 1) An analyst has a neutral conviction (lack of bullish or bearish conviction) on a stock 2) Expected return falls within the range of 5% to 10%.
- **Speculative Buy** – A speculative buy rating reflects 1) An analyst has a bullish conviction accompanied by a substantially higher than normal risk 2) Expected return falls above 10%.
- **Sell** – A sell rating reflects 1) An analyst has a bearish conviction on a stock 2) Expected return falls below 5%.

*Expected Return (ER) represents the sum total of both capital appreciation and the dividend yield.
